LATE NEWS

Arrest Asserted Bandits

E. J. Lloyd Jones, 25 years old, was placed in jail last night charged with suspicion of robbery after he was accused by Joseph Williams, 970 Orange street, of having participated in a midnight hold-up in the apartment-house where Williams lives. With a companion Jones broke into Williams' room, the latter reported to the police, attacking him with his brother, John, and a friend, Ray Lowe. At the point of guns, said Williams, he was forced to hand over \$50, while his brother and Lowe were ralieved of small amounts of money.

Accuse Each Other

chart it is idle to continue using the argument that the United States should be represented in the Army of Occupation for psychological reasons, insist that their continued presence in Europe is tempting fate. They believe that the sooner the 1200 remaining American Regulars are brought home the less danger there will be of involving this government in European political squabbles.

For some time Secretary Weeks and other administration advisers have been urging the return of the troops on the Rhine. Gen. Persishing is declared also to be in laughting was

# Just a Couple of Points He Overlooked! ARREST OF MAN AND WOMAN IN EAST PREDICTED

NEW BRUNSWICK (N. J.) Oct. 16. - Two arrests is section with the slaying of the Rev. Edward Wheeler Hall and Mrs. Eleanor Mills, his comely choir leader, will be made within thirty-six hours, it was said tonight in an official quarter. The two persons who, it was said, will be arrested and charged with the double slaying are a woman who has been repeatedly interrogated regarding the case and her bro who also has been questioned at length more than once-two upon whom the suspicions of many have been fast since first the bodies of the victims were found.

unless county officials "beatethem to it," it was explained,
the arrest of the pair will be made
by the State police, who have
been investigating the case independently since the prosecutors of
Middlesex and Somerset counties
failed to accord them what State
police officials considered the
proper measure of co-operation.

BUCHAREST, Oct. 16.—King erdinand and Queen Marie, who vere crowned at Albajulia yester

were crowned at Albajulia yesterday, arrived here this morning with their guests. They seemed weary, which was not surprising because there was no accommodations for the royal party at Albajulia and they were obliged to remain in the day coaches since Friday.

In the procession, which formed at the depot, the colors of all the rogiments of the army were flown. They preceded the King, who in a seneral's uniform rode alone mounted on a white charger. Behind came Marshall Foch, the various Princes and foreign missions. Next came the Queen and her daughters in three carriages with postilions. A regiment of cavalry of the guards brought up the rear.

cavalry of the guards brought up the rear.

The cortege stopped in a downpour of rain at the Triumphal arch which had been erected at the entrance to the city, and the Mayor, according to tradition, offered bread and sait to the King. The procession then moved to the cathedral, where a te deum was sung. A great luncheon followed at the palace, and later the sovereigns watched a pageant depicting the principal events in the history of Rumania from Roman times to the war of independence in 1877.

in 1877.

After the pageant the mayors of the towns in the provinces throughout Rumania marched past, many of them wearing the picturesque national costume. Since early in the norming the streets were occupied by thousands of sightseers. The police took elaborate precautions and suspicious-appearing foreigners were closely watched.

ARTICLE III (Continued)

(Sir Arthur's First American Scapec and its Results. In Second Lecture He Tells More About Heaven, The Soul at the Time of Death.)

Upon May 14 we had been asked by a psychic research body, in which my friend, Dr. Alierton Cushman of Washington, is interested, to attend a seance in order to test a young Italian named Becoraro, who was supposed to have psychic powers. He was a stunted, undernourished youth, with a face of premature age, and could only speak a few words of English. Two Italian females of his own class were with him, and the party was brought by Dr. Vecchio, a skilled psychic observer and a man of high scientific attainment, who has already written a book upon this subject.

I was impressed by Vecchio as a very competent experimenter. The other sitters were Dr. Cushman, Dr. H. Carrington, a Persian gentleman named Kervorkian, two young ladies whose names I did not catch, my wife and myself. A cabinet had

#### SAY LIFE LOSS WAS NEEDLESS

Mine Disaster Witnesses Heard at Inquiry

Could Have Halted Fire by Stopping Fan

Governor's Committee Will Meet Again Soon

SAN FRAN I... Oct. 16.—The loss of forty-seven lives in the Argonaut mine fire last month in all probability would have been averted, according to witnesses appearing today before the investigating committee appointed by Gov. Stephens, if the fan at the head of the Muldoon shaft of the mine had been stopped immediately after the fire was discovered. As the head of the Muldoon bore is seventy-nve feet below that of the man Argonaut shaft, said T. A. Rickard, western editor of the Engineering and Missing Loynal and the service of the man argonaut shaft, said T. A. Rickard, western editor of the Engineering and Missing Loynal and the said of the proposition of the Engineering and Missing Loynal and the said that approximately and the man Argonaut shaft, said T. A. Rickard, western editor of the Engineering and Missing Loynal and the said that approximately and the said that approximately also the tank out. averted, according to witnesses appearing today before the investigating committee appointed by Gov. Stephens, if the fan at the head of the Muldoon shaft of the mine had been stopped immediately after the fire was discovered.

As the head of the Muldoon bore is seventy-nve feet below that of the main Argonaut shaft, said T. A. Rickard, western editor of the Engineering and Mining Journal Press, and a well-known mining authority, stopping the fan from sucking air out of the Muldoon would have allowed the heavier pure air to force the gas-laden atmosphere in the lower Argonaut levels upward, a process in which the draft created by the fire would have assisted.

ASKED ABOUT FIRE

Fred L. Lowell, safety enginee of the California Industrial Acci dent Commission, said that his firs

of the California Industrial Accident Commission, said that his first question on arrival at the scene thirteen hours after the start of the fire, was whether the Muldoon fan had been reversed. Lowell said he was told it was still running and that reversing it would have taken several hours, so a conference was held, and it was decided that at that late hour reversing or stopping would be useless.

Lowell and H. M. Wolflin, safety superintendet of the commission, both expressed the opinion that the fire could have been extinguished with a sufficient amount of water. Lowell said a good way at the fire could have been extinguished with a sufficient amount of water. Lowell said a good way to be prepared for a fire would be to have a water column down the shaft, with a hose connection every 100 feet.

The Governor's committee, composed of A. B. C. Dohrmann and W. J. Loring of San Francisco and J. C. Williams of Grass Valley, announced that the committee's purpose was to get to the bottom of the entire question. No date was announced for the next hearing, but it was said there probably 'would be one held in Jackson, in addition to those in San Francisco.

Will J. French, chairman of the Industrial Accident Commission, add the commission did not have sufficient funds to carry on its work of inspection, investigation, and safety promotion properly.

French said the commission only had a fund of \$15,000 and three engineers, when it should have from \$50,000 to \$100,000 and eight engineers, and declared that the public interest in the Argonaut disaster probably would result in increased appropriations by the Legislature. FUNDS ARE LACKING

BRICK MAKERS HURT BY CANADA'S IMPORTS

ANTIDUMPING ACT INVOKED TO PROTECT INDUSTRY IN AMERICA

WASHINGTON, Oct. 16. — The Antidumping Act of 1921, which was incorporated in the emergency

Antidumping Act of 1921, which was incorporated in the emergency tariff law, has been invoked as a means of protection for domestic manufacturers of plastic brick.

A finding signed by Edward Clifford, Assistant Secretary of the Treasury, to the effect that plastic brick manufactured in the province of Quebec, Can.. are being sold in the United States at less than their fair value in, violation of the Antidumping Act, was made public today.

"After due investigation," said Mr. Clifford in his order, "I find that the industry of manufacturing brick in the United States is being or is likely to be injured by reason of the importation into the United States of plastic brick imported from the Province of Quebec, Can., and that such merchandise is sold, or is likely to be sold, in the United States at less than its fair value."

Under the Antidumping Act, provision is made for the levying of a special dumping duty, equal to the difference between the importer's purchase price and the foreign market value when the purchase price is less than the foreign market value.

#### AMERICAN MERCHANT MARINE RANKS HIGH

UNITED STATES HAS LARGEST PERCENTAGE OF NEW SHIPS

BALTIMORE, Oct. 16. — The American merchant marine has the largest percentage of new

old ships, according to a compilation by Lioyd's Register of shipping which, for the first time has
analyzed the shipping world according to effectiveness.
The percentage of the total tonnage now in existence for each
five years old 5.8; five
and under the years, 14.6; ten and
under fifteen years, 14.6; ten and
under fifteen years, 14.5; fifteen
and under twenty. 11.9; twenty
and under twenty-five years, 9.7;
twenty-five years and over, 11.5.
In view of the fact that the
average life of a steamer is about
eighteen years, those ships of
twenty-five years and over may be
generally regarded as ineffective
from the point of view of world
competition and also a fair proportion of those over twenty years
and under twenty-five.

#### GERMAN COTTON MEN PROTEST MARK ORDER

INY CABLE AND ASSOCIATED PRESS. BREMEN, Oct. 16 .- The Cotton Exchange here has wired the gov-

Exchange here has wired the government authorities in Berlin that the new decree restricting dealings in foreign moneys threatens strangulation to the cotton industry in Germany.

The protest says the decree forces home spinners to buy raw supplies in the United States instead of in Bremen, and that it will soom bring the domestic cotton industry to a standstill. It also maintains it is essential that sales shall be made on a dollar basis, since supplies must be bought with American currency.

disaster probably would result in increased appropriations by the Legislature.

Dobrmann asked if the commission had anaple power to order the installation of five protection apparatus. French replied that it was obligatory for mines to have a safe place for their men to work. Wolfilm said that, as far as he kenw, the commission's orders that extinguishers be on hand at powder magazines and where a hazard existed had been fulfilled at the Argonaut mine.

Williams asked if it was not true that the only talk after the fire was discovered was of extinguishing the flames, and that no mention was made of resuing the men. Wolfiln explained that probably the men on the surface thought if the fire was put out the men would be able to come up the shaft in safety later, but Williams asked again if it was not true that the fire, rather than the entombed men, was the only thing discussed. "That may be, replied Wolffin. Williams said say mine with even one stick of wood was hazardous on account of the presence of gas, saying that he had lost a nephew, a cousin and a friend in a mine fire at Kernyille some years ago when there were only three sticks of wood in the whole mine.

#### WAR SECRETS MADE PUBLIC

Americans Planned to Blow Up All Berlin

Armistice Saved City from Great Attack

Flying Torpedo Was to do Deadly Work

story of how the signing of the armistice saved Berlin from a aerial attack was related here to-

arrial stack was related here today with the permission of the government for the first time by Lester
P. Barlow and Glenn L. Martin,
inventors of a device for a longrange attack. Only a few persons
are said to have known the secret,
so clorely was it guarded.

The basis of the idea was the
combining of the flying torpedo,
unit principally along the lines of
the dual-motored bembing plane,
with a small plane of the scout type,
but carrying a large fuel tank, Mr.
Barlow said. In flying to the obfective, the two planes were to
have been a single unit, the smaller
plane's eagine drawing its fuel
from the torpedo-plane's tank,
leaving its only fuel supply intact
for the return flight.

The range was limited to emly
the distance the smaller plane
could travel in bringing the pilot
back to the base, Mr. Martin ex-

NATIONS PROTEST ."FOREIGNERS' TAX"

TALIATION AGAINST ACTION TAKEN BY GERMANS

BERLIN, Oct. 16. - Englas rance, Switzerland and Czecho-lovakia finally have united, for atic action against the policy of the German federal states muni-cipalities, with Bavaria in the lead of tapping pockets of Americans and other visiting foreigners by im-

and other visiting foreigners by impecing special graduated taxes for their entrance or sojourn within their confines.

Great Britain and her associates have not contented themselves with diplomatic remonstrances that the imposition of special taxes on foreigners flatly violates article 276 of the Versailles peace treaty, but have backed the declarations with the intimation that no passports will be vissed for Germans to enter their territories until the peace treaty terms are obeyed and the special taxes abolished.

Prussia which has been tardy in the antiforeigner campaign came

Frussia which has been tardy in the antiforeigner campaign came in line with Bavaria by imposing a quintuple iodging tax on foreigners renting apartments or hotel rooms which amounts in practice to 80 per cent of the room price. It also is preparing a bil imposing a high entrance fee on foreigners, graduated according to the length of their stay.

WASHINGTON, Oct. 16.—The Fort Apache, Arizona, military reservation, containing approximately 7500 acres, has been declared useless for future military purposes and placed under control of Secretary Fall of the Interior Department. The reservation has been since 1877 under War Department jurisdiction.

At the Interior Department it was said today that the reservation would be utilized for the present at least as a school for Indian children. A school to be known as the Roosevelt School, able to accommodate 500 children, will be established there as a part of a general scheme on the part of the Indian bureau to provide educational facilities for all those Indian children now unable to seched.

They must plan on a more than proportionate increase in the volume of telephone traffic with the greater average use of each telephone.

The engineers must provide for the maintenance of present service and at the same time for inevitable expansion. One of their difficulties lies in the necessity or the continuous use of the existing "plant" while it is being improved and enlarged for the demands of the future. There can be no "detours" in the voice highways.

That the telephone industry is keeping pace with the growth of Los Angeles is shown by the fact that while the increase in population was 80.3%, the number of telephones increased 110%. Since January 1, 1920, we have made a net gain of 43,000 telephones, or a number equal to approximately two-thirds of the increase in the previous ten-year period!

In the first nine months of this year we have made a net gain of 16,569 telephones—an increase of 10.5%. To handle the traffic, switchboard capacity has been increased in far greater proportion. The operators have increased from 2232 to 2765-a gain of 23.9%.

The decisions of our engineers are being supported by the use of labor, money and material to the fullest extent consistent with practical and economical construction and operation.

HOFFINE-MIDDLETON, INC.

BIRD'S-EYE VIEW WILSON'S LOS ANGELES PLANT, 1000 LYON STREET

# The advantage of Government Inspected Meats

When you buy meats or meat food products from the Wilson plant you have a double assurance of their cleanliness, wholesomeness and high quality.

Not only must they pass the rigid inspection of the Wilson experts and conform to the high standards guaranteed by the Wilson label, but they must also pass the double inspection by the representatives of the U.S. Department of Agriculture.

These government experts inspect the animals on the hoof, and also inspect the meat before it is prepared for the market. It must be healthy and wholesome—desirable in every way for your table.

Look for the government inspection stamp on the fresh meats you buy; look for it on the smoked meats and on the packaged meat food products.

It substantiates all that we are proud to claim for the Wilson label-that the products on which it appears have been selected, handled and prepared with the same respect your own mother would show toward your favorite dish if she were preparing it for you.

The Wilson label protects your table

IN SUCCESSFUL TESTS

BY THE POINT WIRE!

DAYTON (O) Oct 15 500.

DATTON (O.) Oct. 16.—Successful test of a new dirigible balloon, designed, it is said, to replace the captive observation balloons of the late war, was conducted at Wilbur Wright Field Saturday by Charles Brannigan, test pilot of Akron and Ensign Charles Bauch, U.S.N., it was announced here today.

Under the test, the balloon, 500 feet in the air and attached to a motor truck, was pulled to various points on the field. The balloon was then cut loose from the truck and under its own power, cruised about, later coming back to the truck/where a drag rope was picked up and the ship towed back to its moorings.

It was pointed out that the balloon might be towed astern a battleship and after cruising about for observation, might again be attached to the ship.

The new ship, slightly larger than a pony bilmp, is ninety-five feet in length and is driven by a single motor.

canadians, for while there has seen opportunity for profits in the heavy licoum period, the situation has seen unhealthy for both parties. The restoration of the Canadia. On the contrary, the migration from Canada to the United Science of the Dominion, and it is claimed that interly the liquor trade is of the Dominion, and it is claimed that a \$1,000 and Estimates as high as \$1,000 and Estimates as high as \$1,000 and the record thus in the contrary of the Dominion, and it is claimed that come across the border.

But one need not be driven to drink in his study of the subject. The Canadians are exporting great. But one need not be driven to drink in his study of the subject. The Canadians are exporting great quantities of wheal from one of the liggest crops they have easied the acting commission. Wednesday.

FORUST DEPLETION

Our exports of wood pulp, which come largely from: Canada. In the contrary, the migration and colonization to account. It is claimed that the steel companies in the steel into account. It is claimed that the work of the work

been exceeded. Shipments of finished steel, however, are held up by lack of cars.

KANSAS CITY (Mo.) Oct. 16.—With grain and live-stock markets showing slight declines, the farmers of the Middle West are grumbling more than ever, but they appear to have ample money for actual needs. Last week showed a decided increase in wholesale and retail trade in this territory, although purchases are confined largely to essentials. Wholesale operations are not large, but are frequent.

Building activities, especially in the construction of dwellings continue with unprecedented demand for builders' hardware, lumber, brick, cement and other materials. The automobile business is holding up well for this time of year with buyers in the market who

operations are not large, but are frequent.

Building activities, especially in the construction of dwellings continue with unprecedented demand for builders' hardware, lumber, brick, cement and other materials. The automobile business is holding up well for this time of year with buyers in the market who have long been holding off to take advantage of all price decreases. Some dealers are having new cars driven from the factories in order to get deliveries. Investment Bankers Come Back to Learn if It's Really

tire Son could put into the transaction.

The convention itself was successful in every particular, but naturally the entertainment features were in the foreground. The reports of the several divisions into which the organization is divided were voluminous and covered the ground so completely that there was little reason for additions or debate from the floor.

Only two items at any time threatened serious division of opinion. The ship subsidy opposition was permitted to sleep peacefully away in committee, and by the time W. E. Creed got through with the Water and Power Act the convention unanimously adopted the language of the board of governors in condemning that measure as unsafe and certain to materially affect the credit of the State.

The details of the convention were admirably managed under crowded conditions, and except for the failure of the telegraph company to gauge the importance of the event there was not an untoward incident. The delegates who did not return to Los Angeless are reported fair, with bottoms are reported fair, with business are reported fair, with a cutlook for the remainder of the year is excellent.

NEW YORK. Oct. 15.—Active bidding up of industrial shares, including United States Steel common, which was carried to a new high of 111% at the opening of today's stock market induced recent buyers to take profits with the result that marked irregularity took place in later trading. Rail shares came to life today and some material gains were registered.

Traders who have been bidding up stocks in expectation of stock dividenda received a setback today who melbert H. Gary, chairman of the United States Steel Corporation and E. J. Corish. Drasident of the National Lead Company, both denied that any distribution was contemplated by their cancerns.

New York Central crossed par again today, but later fell back to 218%, fell back to 218%, fell back to 218%, and Brooklyn Rapid Frankt up 21-8; Notional Biscuit stood out in the saturday's close. The advance of an increase in the dividend rate. Other strong spots in the rail group were Atlantic Coast Line, Neading, New Haven, New York. Ontario and Western, "Nickel Plate" Second preferred and Delaware and Hudson, the gains range from 3-4 to 2 points.

More than 100,000 shares of United States Steel common changed hands, the closing price, however, representing a not gain for increase in the dividend rate. Other strong spots shares of United States Steel common changed hands, the closing price, however, representing a not gain for increase in the dividend rate of United States Steel common changed hands, the closing price however, representing a not gain for increase in the spot of the buying undoubtedly was based on theory that the report of the corporation's business for the third quarter will be more favorable unan generally expected. FINANCIAL STATEMENT

Population (1922) estimate .....20,000

The Merced Irrigation District was organized on November 25, 1919, to acquire the existing estern, properties and water rights of the Crocker Huffman Land and Water Company, which dates ack to the inception of the Robla Canal Company in 1873.

The District comprises 190,000 acres, of which 70,000 are now irrigated by this system to of the area include figs, peaches, olives, pears, plums, apricots, grapes and alfalfa. ining acreage of the District, with irrigation, is capable of producing equally valuable or

Proceeds from the sale of these bonds will be used for the extension of the exist. The balance of the authorized issue is to be applied to the construction of a dam and at Exchequer. The dam will be used to store 250,000 acre feet, which will assure an apply of water for the entire area to be irrigated. This assurance is based on measures on the Merced River during the past nineteen years.

Power to be generated has been sold at the switchboard to the San Joaquin Light and Power Corporation under a 20-year contract. This contract can be extended 20 years at the option of the District. The estimated net revenue to the District from this source is \$570,000 per annum. The engineering feasibility of the project has been carefully checked by eminent engineers and their reports have received the approval of the California Bond Certification Commission.

With the development and extension of the present system as contemplated, the Merced I tion District gives promise of becoming one of the richest irrigation districts in the State of Calif

# Read This Letter and Think It Over

A LETTER recently received by the financial editor of a large newspaper is given below. Read it. Perhaps you have had the same ideas and asked the same questions as this investor.

"I am tired of studying market reports and stock exchange quotations. I am tired of seeing my investments fluctuate in price. Isn't there some way to invest your money in something that is safe, non-fluctuating and simple; that is as easy and worry-free as putting your money in the bank; but which pays a good rate of interest?"

There is such an investment. It has been tried and proved for 40 years. It gives you the chance to invest your money safely, with relief from all worry and trouble. It is called a Straus Bond. It is available in \$1000, \$500, and \$100 amounts. Call or write today for our booklet which explains our Plan. Ask for

#### **AUTO ROBBERS** ARE THRIVING

Business of Stealing Cars Grows in East

Connivance Between Owner and Thief

Heavy Financial Loss Written Off Daily

BY RICHARD SPILIANE
[Exclusive Disparon.]
[Copyright, 1922, Public Ladges.]
PHILADELPHIA (Pa.) Oct. 18.

Thefts of automobiles have as as to the number of cars stolen each year are not at hand, but an idea of how this branch of robbery is spreading may be appreciated from the fact that warious

Ing or a sore property or character of real estate.

Unquestoinably the ease with which automobiles can be stolen and later, if necessary, disposed of has given spur to banditry and bootlegging. It is an open story that there is connivance in many cases between the owners and those who steal the vehicles, the owner having insured the car heavily and seeing or thinking he sees more profit in having the car "stolen" than in retaining it. He collects not only from the fisurance company, but sometimes shares in what the thief gets through the sale of the car.

The operation of "stealing" the car is simple. The owner notifies the professional thief where it will be at a certain hour on a given day. The owner drives up in his car, leaves it at the curb and goes to office or store to transact some business and, when that is done and he returns to the street, is shocked to learn his car has disappeared.

Carelessness on the part of State officials, city officials and the owners protects the crooks. Every car owner should be required to have in the form of bill of purchase or sale proof of ownership of his car or cars, with description of the vehicle sufficient to identify it without doubt. Every person operating a car should have to give adequate proof of his ability to handle a car. If the possessor of the autombile lacked proof of ownership or ability to handle a car. The vehicle should be impounded by the authorities until he furnishes it.

There of automobiles is not so common west of the Mississippi, and particularly west of the Rocky Mountains, as in the East. There the automobile robber is leaked.

OLIDATED REALTY BLDG. uth Hill Street

These bonds having been sold, this advertisement appears as a matter of record only

# \$18,000,000 Kingdom of Norway

Thirty Year 6% Sinking Fund External Gold Bonds

Dated Oct. 16, 1922

Not redeemable for ten years

Interest payable April 15 and October 15. Coupon bonds in denomination of \$1000 registerable as to principal only. Principal and interest payable in New York City in United States gold coin of the present standard of weight and fineness at the National City Bank of New York, the fiscal agent of loan, without deduction for any present or future Norwegian taxes in time of war as well as in time of peace, irrespective of nationality of holder.

SINKING FUND SUFFICIENT TO RETIRE ENTIRE ISSUE DURING FINAL TWENTY YEARS.

Norway agrees to redeem the entire loan through a cumulative sinking fund, the first payment to be made on April 15, 1933, and payments semi-annually thereafter, until the maturity date of loan. All bonds redeemed through the sinking fund shall be canceled. Except for sinking fund purposes, bonds are redeemable only as a whole, but not in part, on October 15, 1932, or on any interest date thereafter at 100 and interest.

These bonds are direct obligations of Kingdom of Norway, which agrees that if in the future it shall sell, offer for public subscription or in any manner dispose of any bonds or loan secured by any lien on any revenue or asset of the Kingdom, the service of this loan shall be secured equally and ratably with such bonds or

The high credit position of the nation, justified by the excellent record of the Norwegian people in meeting their obligations, is evidenced by the follow-

From 1886, the date of the earliest external loan now outstanding, to the outbreak of the war, the net cost to the government of its loans ranged from 3.10% to 4.11%.

During the eight years immediately preceding the war the average yield of four loans listed in London was 3.77%, and the three loans listed in Paris 3.66%. The average yield of 11 issues quoted September 26, 1922, in Christiania was

The five Norwegian government loans listed on the London Stock Exchange were quoted on October 3, 1922, to return an average yield of only 5.65%.

The proceeds of this loan will be used for repayment of \$5,000,000 Kingdom of Norway 6% bonds, due February 1, 1923, for construction and extension of government railway, telegraph and telephone facilities and for the development of hydro-electric power.

We offer these bonds if, as and when issued and received by us, subject to approval of counsel. Delivery in temporary form is expected on or about October 25, 1922.

# LET'S DISCUSS IT

Construction in Los Angeles Surpasses Chicago, New York and San Francisco Together

A study of the figures and estimates collected by the statistical division of the U. S. Depart-ment of Labor reveals the astounding fact that Los Angeles now has under way or under constructions of New York, Chicago and San Francisco. This is overwhelming evidence of the wonderful growth and business activity

**Business Property for Sale** Yielding 10% Net Income

On South Los Angeles Street, near Washington, offer for sale a two-story building, which is occupied. In order to stimulate prompt action price and terms have been made exceptionally tractive. It will yield 10% net income. We particularly recommend this as an investigation

tinent.

Labor is beginning to realise that although a high standard of living is desirable, the first principle is to insure that business is able to pay dividend and taxes.

A more favorable attitude toward private enterprise is being caused not only by the constant deficits in the match monopoly, which the government may soon relinguish, but also by the confidence inspired by the Bank of France. After the war of 1876 the fiduciary circulation reached 3.600.

NEW LOAN NECESSARY

NEW LOAN NECESSARY
The need of the present 5 per cent loan is evident when it is considered that the government convention demands a reduction in note circulation by 2,000,000,000 annually, or a reduction below the actual figures of 1,500,000,000 by December \$1.

The favorable tax returns of only 2 per cent below valuations and 14 per cent above the returns of September, 1921, will assist the position of the Treasury. The reparations solution is developing along the new phase of an entente between the ministers of France and Germany, and as necessity is the mother of invention this plan will gain in favor with the improbability of obtaining sold in the near future. The method most recommended is that shares in German industrials be turned over to France who will use them in payment for German goods delivered to the devastated regions.

# The Man Who was too "wise" to Invest in Oil

You have seen many like him—some of them only moderately well-to-do, others quite wealthy. They have money to invest, but they follow only the beaten path—too cautious ever to buy any-thing but the ultra-conservative security, even though it does yield them only a small return.

Something a little different in the way of an investment was suggested to this man and he turned it down flat. What! Buy oil units? Not while he's in his right mind! Not for him! Seen too many get fooled!

No chance for the individual operator. Big companies control everything and squeeze the independents out in the cold. Oh, sure, it may be square enough. But he couldn't see where anybody outside of the "octopus" could even hope to really make anything big out of oil.

Costs too much to drill and besides most of these independent companies are over-capitalized. Even if they do strike oil on some low production lease that the big companies wouldn't have, you're lucky if you ever get your money back.

DID HE KNOW ANYTHING ABOUT SIGNAL HILL? Oh, we, he'd driven past and seen some

Could he name any of the producers there? No, never bothered to look them up.

Had he any idea that the field was producing MORE THAN 100,000 BARRELS OF OIL A DAY? N-o-a little surprised to hear it.

Did he realize that 100,000 barrels a day meant something like \$38,000,000.00 a YEAR FROM THAT ONE FIELD ALONE? Yes, come to think about it, that's about right.

Did he know that the field includes 97 wells averaging better than 1000 barrels a day, and that a large percentage of those wells are owned by independent operators? THAT THE CITY OF LONG BEACH HAS BEEN MADE NEARLY TAX FREE by the wells that have been drilled on city property?

#### ALL NEWS TO HIM

Had he ever heard that practically every invest-ment where wells have been drilled in Signal Hill and Santa Fe Springs has proven immensely profitable? Some more brand new news!

Similar facts about Santa Fe Springs were just as new to him. He wasn't aware that it ranks as the greatest high-gravity oil field in America—that the completion of 2000, 3000 and even 4000-barrel wells is a common event—THAT ONE WELL ALONE HAS PAID NEARLY \$2,000,000 AND IS STILL A HEAVY PRODUCER - that small investors by the score have been enriched through its marvelous production.

It came as a complete surprise to him that one firm —Fred B. Foster & Co.—had drilled and completed 22 wells—raised more than \$1,360,000.00—financed six syndicates—produced oil for every syndicate—paid dividends on six syndicates re than 50,000 dividend chec paid ten monthly dividends on one syndicate at the average rate of 72% a year—paid nine monthly dividends on another syndicate at the average rate of 65% a year—paid seven monthly dividends on another syndicate at the average rate of 42% a year—paid one dividend on another syndicate at the rate of 63% a year.

Yes, that was all news to him. Still—well—he'd think it over. So he shut his eyes to think instead of keeping them open to look—and for all we know he will keep them shut the rest of his natural life.

# The Man Who Took a Chanc

Progressive, energetic and wide awah, making a good salary and putting and

He was sure of a livelihood, but he want thing better before he got too old to en He knew, of course, that he couldn't re

ambition on a salary plus the modes that his surplus funds were drawing. One day he read that within a 25-mile in his home in Los Angeles there was an omaking \$5000 A DAY FOR ITS OWNER.

The fact hit him squarely between the and he got into action! He straightwout the name of that well and the field—THE JERGINS CITY WELL AT HILL. He wanted to know what the of the field was doing and found out the of nearly 100 producing wells the course production was \$400,000 WORTH OF O

He dug out a lot of other facts about the transdous wealth that Signal Hill and Santa Fe Spot fields are producing and he decided that wanted some of it for himself.

He wasn't a plunger.

He had too much good sense to bind himself the chance he was taking, small though it peared, and too much experience ever to per his eggs into one basket. So he apportunity a liberal part of his reserve funds and to hunting for the best opportunity to gain his

# He Chose Fosters' Californian

And these are the reasons for his choice— He found out that CALIFORNIAN holds leases in three great fields, totaling 60 ares. He learned, too, THAT CALIFORNIAN WELL MORE THAN 1100 FEET DEEP WELL MORE I HAN 1100 Power Signal Has NOW, drilling on a highly proven Signal Has surrounded on three sides by production this well will probably be completed with days and another one started on an equally a days and another one started on an equally a large marvelous feld. piece of acreage in the same marve

CALIFORNIAN, moreover, owns two less Santa Fe Springs, totaling 15 acres — petral an investment worth a fortune. And, at the speculation, yet the most alluring feature of a CALIFORNIAN'S 44-acre tract on Athenatical CALIFORNIAN deliberated relationships of the control of the predicted. CALIFORNIAN drills these and a leases out of 25% of the production of its

Then he went into the details of CALIFOR —all the oil she ever receives to be divided only 4000 units—each unit a perpetud ind and non-assessable title—dividends perall 30 days—no deductions except a trille for tenance of wells and 25% to drill addition

He had the facts. He bought several water EVEN IF CALIFORNIAN, OUT OF HER LEASES OF 60 ACRES AT SIGNAL SANTA FE SPRINGS AND ATHENSON HILL, GETS ONLY 200 BARRELS SUSTAINED PRODUCTION, THAT MAN WIN MAKE MONEY FROM HIS INVESTMENT.

But very rightly he confiden close neighbors, CALIFORNIAN to set as 3000 and 4000-barrel wells on its losses, and a become from CALIFORNIAN that will keep his comfort and ease for life.

Which kind of man are you-too "wise" or wide awake? Come to our office-find out just how sure Californian's Santa Fe Springs and Signal Hill leases are of big production and make your decision as to how many Californian units YOU want, before every one of them is sold. If you cannot come in person, send your order by the earliest mail. Californian Units are \$100 each.

that the boats were eighteen miles out when selved.

The proceedings against the two boats will be brought under the new tariff law, it was said, and will be the first case under the hot. Under the ruling of Atty.-Gen. Daugherty that ne one is to be arrested outside the three-mile limit, the two capitains and the set negroes were released after being taken to the District Atterney's office in Brooklyn. They declined to reveal the ownership of the boats. reveal the ownership of the

PUBLISHER'S FORTUNE IS GIVEN TO CHARFEY

WAUKEGAN (III.) Oct. 16.—
The will of Delavan Smith of Lake
Forest, publisher of the Indianapolis News, was admitted to prebate today.

The decument disposes of nearly
\$2,000,000; most of which goes to
charitable institutions. All omployees of the Indianapolis News
were remembered in bequests ranging from a few hundred delians to
\$10,000.

MOONSHINE RAID IN KENTUCKY MOUNTAINS

KNOXVILLE (Tenn.) Oct. 18.— Word has been received here of a great moonshine raid into the Mountains of Breathitt county.
Kentucky, in which ten complete distilieries were destroyed, and 3500 gaillons of still beer and nine-ty-five fermenters were poured out. A quantity of the finished product also was discovered.

The still had been made from gasoline tanks of iron, and this alone would have made the product poisonous, officers said.

REINSCH REPORTED INSANE (BY CARLE EXCLUSIVE DIFFACE.)
PEKING, Oct. 16.—It is reported that Dr. Paul Samuel Reinsch, former United States Minister to China, has suddenly gone in the at Hankew and is being guarded by bluelackers.

#### Greeks Back of Venizelos for Republic

through the appearance of letters in the Veniselist press favoring the establishment of a republic in

Greece.

The monarchist newspapers represent that the Venizelist party intends at the forthcoming elections to strive for a national decision favoring a republic, with Venizelos as president, but many of the Venizelist leaders and some of the Venizelist organs disavow a republican movement, saying that the opinion of a few men should not be interpreted as the opinion of the whole Venizelist party.

Blue-jay

The simplest way to end a corn is Blue-jay. A touch stops the pain instantly. Then the corn loosens and comes out. Made in a colorless clear liquid (one drop does it!) and in extra thin plasters. The action is the same. Pain Stops Instantly

Chandler general manager of

the Los Angeles Steamship Com-

In the offices of the United States local steamboat inspection service, however, the official investigation of the accident was under way. Capt. S. E. Kennedy, Jr., and Carl F. Lehners received the testimony of various officers and members of the crew of the ill-fated vessel. The hearings will be continued this week, Capt. Kennedy announced, no decision being made until the completion of inquiry.

The investigations added official trimmings to a scene in many ways as thrilling and emotional as that enacted in mid-Pacific when the passengers took to the open lifeboats.

There were no tears, no panic, no agonizing screams and no terror than the passengers.

boats.

There were no tears, no panic, no agonizing screams and no terror when the passengers of the City of Honolulu abandoned their flaming ship, but there were plenty of emotional outbursts on board the transport Thomas as she tied up to the Los Angeles Steamship Company's dock at Pler A, Wilmington, The long strain showed on some of the survivors when they set foot on solid ground and felt the encircling arms of their loved and dear ones.

Engineers and Lawyers Also Enter Race

Professional Men Show Keen Insight Into Life

Great Variety of Subjects in Suggestions

BY CECIL B. DE MILLE Will the next great and famous

That's a wonder that has com ideas submitted in this contest. For doctors lead by a big margin the professions and vocations rep-

For dectors lead "the professions and vocations represented in the thousands of letters which are flooding into the offices established to handle the clerical work of the contest.

And why shouldn't a physician be a great writer? He comes in contact with drama, with suffering. And one doctor, at least, has become a very successful author, notably Dr. W. Somerset Maugham, author of "The Moon and Sixpence." "The Trembling of a Leaf," and more recently a Paramount nicture called "The Ordeal," Maugham gained insight into human nature acting as accident interne for St. Thomas Hospital, London.

I wouldn't be a bit surprised to find that a doctor is among the winners. Some of the ideas they have sent in have been very keen, very subtle analyses of human nature. And, as I have said, dectors have shown more mass interest in this contest than any other branch of endeavor.

GENERAL PROTEST

ACT IS NEEDLESS

Mr. Lippincott was asked who framed the measure. His reply was that it had been drafted, to the best of his knowledge, in the office of Rudolph Spreckels, San Francisco millionaire. One of the women added to this explanation that she had been informed Sprekels had his engineers draw the act because he had some power sites on Pitt River which he hoped to unload on the State should the \$500,000,000 scheme go through.

should the \$500,000,000 scheme go through.

One of his chief objections to the measure, Mr. Lippincott stated, was that it carries with it such vast power and places in the hands of five men such dangerous authority that it should not receive the support either of conservative people or those who support it public ownership idea.

"This act purposes the creation of a State bureaucre, with inadequate control or home rule, as we have been accustomed to in our irrigation districts, mutual water projects or mutual water companies." he con luded.

GENERAL PROTEST

"The California Mutual Water Companies Association has sent out a circular letter to its 15,000 members protesting against the passage of this constitutional amendment. They say:

"Trobably nothing has ever been put before the people of this State that so vitally touches their interests, and so little opportunity given the people to fully acquaint themselves with its possible effects.

"It has been the aim and policy of the California Mutual Water Companies Association to serve and protect the interests of mutual water companies and in our judgment our interests would best be served by voting "no" on this act."

Mr. Lippincott told of the great public debt that would be created by the act and asserted that State-credit should be preserved for essential public improvements such as schools, highways, harbors, sanitation projects and hospitals. "Buch undertakings call for the bonding capacity of California," he added.

Whether a man quits his job for thirty-five years or sticks

THE ANNUAL INCOME

Reports from the building industry set forth that the construction season in America gives the average worker 100 days of or in a year. That is one reason why wages in certain trades must necessarily be high. Unless the worker has another trade or can adapt himself to other em-ployment his hands are idle for a large part of the year. Most of this sloth is from climatic reasons. But in Los Angeles lding goes on for 365 days in the year. In the rush a man may have a seven-day than in Chicago or New York the annual is of greatest practical avail in adjusting income of the Los Angeles worker would the relations between new and untried sol-

There are a lot of people who would vote for a \$500,000,000 bond issue in the vote for a \$500,000,000 bond issue in the careless manner of a child caressing a cellie pup. They negligently assume that the bonds mean nothing in their yoing lives and if there is something good behind there is no reason why it should not be grasped. The question of interest does not interest them and they stand unprincipled in shirking the principal. They speak of billions as they would of hay or cats. Because the proposed vast issue of power and water bonds has been touted as a venture in public ownership they have as and water bonds has been touted as a ven-ture in public ownership they have as-sumed that it was that very thing. As a matter of fact, it is a plunge into political despotism and as as far removed from the public weal as it can possibly be. Once the shackles are riveted the public will have no more authority or ownership to have no more authority or ownership in their project than they will in the aurora

In a specific way they have nothing to do or say in the matter of spending the mon-SER OF THE ASSOCIATED PRESS

#### CONSERVATION PROBLEM

BY ROCKWELL D. HUNT

The chief natural resources of the United States are mineral fuels, coal, past, petroleum and natural gas; metals, iron, copper, lead, sine, gold, aliver, aluminum; water for drinking, irrigation, navigation and the case ficents; and most important of all, the land tiself.

Maif possesses no power to reproduce coal. The supply is definite and is limited. When a ton of coal is mined and burned it is gone forever. Several years ago it was estimated that 20,000,000 tons of coal went up the chimney every year in smoke.

The United States should accordenance greatly accordenance of petroleum means saving more of the fuel for the higher uses, lighting and impleating and fuel for Dissel engines. We should hasts that wells be opened up only as rapidly as will serve the higher purposes dictated by true conservation.

Iron is of all metals the most important and most useful to man. Less wasful methods and greatly accordenance cars should be taken in mining stituted for iron where possible iron should have a preservative coaling to reduce the loss by rust.

If the recent rate of increase in the consumption of copper continues its profitation production may not last more than fire consumption of copper continues its profitation process." Or incorrect the copper from finely ground over and the recovery of important by a continues its profitation in great process. The consumption of copper continues its profitation in process." Or incorrect the copper from finely ground over and the recovery of important by production, which makes profitable the treating by a consumption of copper continues its profitable production may not last more than fire or sevent-five years. Conservation in the first profitable in the consumption of copper continues its profitable production may not last more than fire or sevent-five years. Conservation in the first profitable profuction may not last more than first profitable

the and will ride to the right to count two, which is the third will hold sethly incheon at the Dr. H. J. Stonier, the extension division by a Southern Calinate on the subject of Excellent.

But she can't be found in this "Who's Who." No sir. And when I asked the gentleman who wanted to seil me a copy about it, I discovered that this neglect of Mary in particular and the fourth largest industry of the United States in general, was deliberate.

"Oh, we could not very well put film actresses in among club women," explained the gentleman, properly shocked that I should consider such a thing possible.

Bo, you won't find Mary or Gloria Swanson, although she is a liberal member of the Big Sisters' League.) But, for that matter, you won't find the Big Sisters' League, either. Hence, you won't find Mrs. Minnie Barton, who started the Big Sister movement and is regarded by Los Angeles women as a very notable woman, indeed.

UNEXPLAINED OMISSIONS
In fact, it seems one can't be notable or who's whosy in California without belonging to a club. Even then you are quite liable to be slipped in the very lengthy 60,000 list of mere names, as has happened to our Mrs. Susan M. Dorsey—who did nothing beyond becoming the first woman superintendent of schools in the country. Or Mrs. E. R. Brainerd, who only enjoyed the distinction of being the head of the Liberty Bond campaign for all California and gave California women a quota way above any other State in proportion to numbers. Or Orfa Jean Shonts, who only became the first woman City Clerk and had previously poiled 35,000 votes for judga. Or Mrs. Frank Gibson, whose office of Immigration Commissioner is evidently of no consequence. UNEXPLAINED OMISSIONS

viously polled 35,000 votes for judge. Or Mrs. Frank Gibson, whose office of Immigration Commissioner is evidently of no consequence.

Even Mrs. Gene Stratton Porter, beloved novellist and resident of Los Angeles, with 9,500,000 copies of sold books to her credit, has no other claim to interest beyond being a member of the Ebeil Club.

Mrs. Hester Griffith Miller notable leader in prohibition work, merely listed in that 60,000 club women as a cipher. Miriam Van Waters, juvenile hall referee, author of many reference works on the subject, is also nobody in particular. Georgia Bullock, well-known woman lawyer, can't really complain, she gets listed twice as two club members. Margaret Goetz is lucky, also. She gets listed twoe as two club members. Margaret Goetz is lucky, also. She gets listed twoe as two club members. Margaret Goetz is lucky, also. She gets listed thrice, at three different addresses.

But you can hunt till you are weary and you won't find a mention of Mrs. Yorke, Stevens anywhere—she didn't do a thing but conceive, promote, stage and produce the exquisite Pilgrimage Play which has won world-wide fame.

ANITA BANDLIN IGNORED

cadia Balloon Camp site, as the breeder of wonderful horses, or even as a nice rich lady.

There is a list of musical notables—but you won't find Mme. Mariska Aldrich, who is merely a beautiful prima donna of Metropolitan Opera fame. Neither can you discover Mme. Esther Palliser, whom London once considered worthy royal acclamation.

As for women artists, Mme. Ivy de Verley, whose mask portraits sent London artistic circles crasy with admiration, finds no place in this list. Neither does Katherine Kayanagh Wachtel, whose water colors are regarded by the elect as something rather special. Neither does Laura Mitchell, whose miniatures won first prizes in New York and London.

Under a neat little list of Cali-

to relieve your baby with a

APHRODINE'S COMPOSER And you won't find the name of E. Magnus Ingleton anywhere. Of course, she has only been here seven years and built a couple of homes. And she is only a composer of charming operas, a writer, an actress of considerable former triumphs in Britain, and the first woman war correspondent, whose Boer War writings became famous. That's nothing.

Belying as they did upon the streets tonight carrying torches and huge illuminated banners emand the silvent set they did upon the streets tonight carrying torches.

whose Boer War writings became famous. That's nothing.

Relying as they did upon the clubs and organizations, the publishers have even been a bit discriminating in this. For instance San Francisco's Juvenile Protective Association is there, but evidently we haven't one in Los Angeles. The Big Sister League isn't there, although it has become a nation-wide interest and comprises many of our most notable philan-

W. H. Friedhoff, mineral ex-

miner ofr the Forest Service, is here to make a survey of the camp and resort sites in the local forests,

and to lay out additions thereto, as

creases. With the opening of what

is known as the Deep Creek Road.

is known as the Deep Creek Road, running from Fredaiba to Big Bear, there are already many requests for camp and garage sites, and it is believed that with the completion of the thoroughfare that it will be dotted with evidences of the desire of Southern Californians to live in the big woods.

The program already arranged for the survey and setting out of new camp sites involves Little Bear Creek, and the Santa Ana Canyon, in the vicinity of Seven Oaks.

Mr. Friedhoff, who is familiar with all of the forest reserves in California says there are ten Southern Californians in the woods to one from any other part of the State. The seekers after summer homes are going as far north as the Inyo county country, and they are nearly all from Southern California and especially Los Angeles.

# Your Succe

In baking depends upon the baking powder you use, so don't let canvassers or peddlers talk you into buying a cheap and unreliable kind in order to get a cook book, premium, or worthless trinket.

#### REMEMBER

Calumet has always given you perfect satisfaction-don't experiment—use it and you will always avoid failures-waste of timemoney and materials.

BUY AND USE

It sells on its own merits and reputation

Calumet complies with all pure food laws both state and national and contains only such ingredients as have been officially approved by the United States food authorities

Don't take the chance of spoiling your be ings by using a brand that can be sold only through special inducements.

#### DON'T FORGET

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

## THE WORLD'S GREATEST BAKING PO

# "where do you bank?"

When asked the above question over 345,000 people in California will reply, "with the Bank of Italy."

The reasons are obvious: California's largest bank affords its depositors unusual protection through its large capital and surplus of \$20,000,000 and through the statewide distribution of its \$225,000,000 of resources.

It provides a uniform, metropolitan service to the big cities and small towns of the state. It gives every patron a statewide banking connection.

It does business on an empire-building scale. Its policies are conservative---yet broadly democratic.

It appeals alike to both large and small depositors. It is Californian to the core.

The Pacific Coast Conference, in session at Portland, Or., more than a week ago, favorably mended the Staters as the eleven most likely to meet a Western team on January 1 in the big lib. Crown City stadium. No formal invitation was extended, however, and none will be until such time as the conference sees fit.

Coach Andy Smith of the University of California, it is understood, declared his preference for the Penn State aggregation and this no doubt carried weight with the conference officials. Prom present indications California is the strongest team in the Coast conference and will undoubtedly carry off the season's laurels in the West.

President J. J. Mitchell of the Tournament of Roses Association was present at the conference meeting in Portland, although it was invited to send a representative north. The Tournament of Roses Association will have no voice in the selection of the teams that will play at Pasadena this season, the matter being wholly in the hands of the conference officials.

partment of Loyola College that

Johnny Trambitas, a Portland lightweight who has won his last three starts at Vernon, meets Johnny Tryman of Philadelphia in the semi-windup.

The best preliminary of the night is expected to result when Frankis Novey is the most agreed at the old plant for the coming season. Parts of the track hand of the most agreed to be made faster; the stables will be improved bantam on the Coast while Dunning is a clever boxer who can hit. Eddie Roberts ad Ernest Owens, two stiff punching middleweights are expected to put up a fast fight. Jack Martin, a welter who is idealing a clever boxer who can hit. Lower him to the country of the stables will be insproved and two running races. **EVERY DAY** IN THE YEAR

the memory of the fans for a long span of years.

These are not alibis, but merely facts. Joé Patrick feels that had

jury the Angels would have finished in front by a margin of from three to five games. There is hardly a doubt Ponder would have won nywhere from twelve to fifteen games the last half, and some of them

And had the Tigers remained intact, Vernon would have finished

as that of the players.

Honesty or lack of it is not necessarily a matter of money or of gambling. In fact, it is more likely to be a condition of mind or heart, so to speak. Let us take a moment for self-searching. Possibly you are a rabid fan. Yours is a blind allegiance to a certain team. Just why you may not be able to explain, but its success is your success, its failure your failure, possibly more. The race is close, and your team is in the race. Have you ever secretly hoped that some team out of the race would not play quite as hard against your club as against some other contender—not actually throw a game, but not play quite as snappy ball? In fact, would you not have gone out of your way to excuse such a showing?

Yet if this same weak team was playing against another con-

Tet if this same weak team was playing against another con-tender, and doing its best, but making a bad showing, would you not be quick to criticise, and even hint at questionable practice? Then, when you knew your man was out, have you ever hoped the umpire would call it the other way and give your team the game, and even stood up and hurled profane language at him when you knew he was right.

In fact, have you ever thought any of these thoughts or hand any of these hopes? If not, you are a thoroughly honest fan, and

probably rather lonely.
"Thanks, captain, I would rather face the firing equad without

Earnest young man wearing blue sweater appeared in this de-partment recently. Said he wanted this column to tell the world that Caltech had arrived after many football vicinsitudes. Caltech had just defeated Whittier, last season's conference champions, 9 to 6. It was an event. Earnest young man pointed out that Ed Suggett of All-American mention had made less distance against Caltech than he did against the powerful Trojans. That would appear to be more sig-nificant than the victory itself. Unquestionably, Caltech has grown stronger under the fine hand of Fox Stanton. The Poets are weaker. A school of that size hardly can replace three such men as Madden. A school of that size hardly can replace three such men as Madden ineligible for this game. Madden, to the writer's way of thinking was the best center in the West last season. These mutations and fluctuations of strength are probably good for football. They at least prove that players are not "signed" either orally or in writing for a

#### WHAT THE PREPS ARE DOING

Manual Arts and Los Angeles high schools last Friday afternoon, on Housh Field. Judging from the past record of games which have been played between there must be more interest in

football this season than ever before.

Last year the annual game was played on Bovard Field, as it was a play-off between the two league leaders, and a large crowd was expected as the affair occurred on Armistice Day. The crowd at U.S.C., however, was not a great deal larger than that which attended last Friday. A movement on the part of the students to get the united support of the schools, resulted in the petitioning of all of the teachers at both of the schools to attend the game. As a result there were more teachers at the game than at any other in recent years.

For the last ten years the

than 15,000 persons atthe football game between
Arts and Los Angeles
chools last Friday afteron Housh Field. Judging
the past record of games

fifty yards without an effort. His
average in games is said to be
around thirty-eight yards, which is
a high record for high school
players. Teachout is a star at
end, as his offensive playing is the
bright spot of the Franklin team.

Lincoln High is pretty well laid up, or out. The Jackrabbits stepped all over Tommy Davis's stepped all over Tommy Davis's men last Friday afternoon, and as a result the Railsplitters are trying to figure out who to play in the game next Friday against the Pioneers. Jimmy McCue was stepped on for injuries that were of a more or less serious nature, but he is expected to be able to enter the game Friday if he can get through the week's practice without suffering from any complications from the accidents which he was in Friday.

Undoubtedly Long Beach has the "wonder team" of the City League. Drury, end on the Jack-rabbit eleven, was the sensation of the game last Friday against Lincoin. According to the most eminent authorities on the subject, the team that beats the Seasiders will have to carry hammers somewhere about their persons.

demonstratedly powerful angling county of trout a few years ago under unwise concentration of sporting interest by allowing April Bahing, the State Fish and Game Commission on Sunday the 15th

and the light remained intact, Vernon would have finished.

Several laps shead. Every member of Essick's original pitching staff with the exception of Jess Doyle was injured at one time or another. May's absence from the game for six weeks alone cost Vernon three to six games.

No doubt, San Francisco also had its casualties, but we are less familiar with the troubles of our northern neighbors than our own. Anyway, it was a neat little contest, and particularly in the last half.

Also, it was baseball. If every player played according to his averages of the preceding season, and every club was immune to injuries, despite the ordinary breaks of the diamond, it would be possible to figure in advance the results of pennant races with a degree of certainty designed to remove much of the interest.

Then, what a difference it would have made in the Angel chances had Babe Twombly started with and maintained that cliptat which he finished.

There were times last season when he seemed about everything that a topnotch ball player shouldn't be. His fielding was uncertain, his arm of doubtful accuracy and carrying power and his batting interest by silowing April finished.

Divide the finished and Game Commission on Sunday, the 18th—yeaterday—delivered to its sports in the last first smallment of their seasonal translation on Sunday, the 18th—yeaterday—delivered to its sports in the last installment of their seasonal translation on Sunday, the 18th—yeaterday—delivered to its sports installment of their seasonal translation on Sunday, the 18th—yeaterday—delivered to its sports installment of their seasonal translation on Sunday, the 18th—yeaterday—delivered to its sports installment of their seasonal translation on Sunday, the 18th—yeaterday—delivered to its sports installment of their seasonal translation on Sunday, the 18th—yeaterday—delivered to its sports installment of their seasonal translation on full carbon of the Installment of their seasonal translation of their seasonal translation on full carbon of the Installmen

Friday.

ANOTHER CARLOAD

Another carload the following
week will give Orange county the
heaviest planting in its history,
now that the local streams are
restored by the last normal winter. Further plantings are going
to San Diego, a special messenger
sidetrip Tuesday, October 24, will
deliver to Snow Creek the most
liberal allowance, even heavier
than last year, amounting to planting it to fish-rearing capacity.
Nearly 50,000 fish are going in.
The successful up-building of this
tumbling succession of falls and
pools has been a rather noteworthy
triumph of the fishcultural admintistration of southern sportsmen's
angling-license contributions.

BIG BILL PUTS LITTLE BILL ON HIGH PEDESTAL

BY WILLIAM T. TILDEN.

PHILADELPHIA, Oct. 16,-Ou California is a small, sandy-ired, quiet little man. If you uld put him down as almost in

than he when he advances to the nef. His perfect timing of his strokes and remarkable footwork account for the pace he gains. I urge all young players to study Johnston's method of footwork.

Is Little Bill through this year? Three weeks before the championship I would have said yes, but now my ideas have changed. Johnston tells me he will come back, possibly next year, but anyway, in 1924. If he comes next year it will be only a short trip, just for the Davis Cup and nationals. It would not surprise me to see Johnston invade Europe in 1924. I hope that he and I may play England, France and Spain together that year.

# Armstrong's Linoleum

for Every Floor in the House

# This floor is a part of the room

The floor of linoleum is a pleasing contribution to the color scheme

JOU can have color and design I on your floors, as well as on your walls. Linoleum gives you this opportunity because it is made in so many different patterns and combinations of colors.

In addition, the linoleum floor is easy to clean and long-enduring. It is always smooth, always quiet and resilient, and warmer than either wood or tile.

Rugs are laid on linoleum floors as on any other permanent floor, and an occasional waxing and polishing keeps the linoleum fresh and new-looking. It is an attractive floor that never needs refinishing.

Decorative floors of Armstrong's Linoleum may be selected from a number of plain colors, several Jaspé (two-tone) effects, also parquetry inlaid, carpet inlaid, tile inlaid and printed designs.

How to Lay Linoleum on Wood Floors I N the rain, standard the an acture in the air causes wood floors to apand. In the dry season they tend to dry out and contract, and may open up the cracks between the toards. Your linoleum floor, therefore, should be comented (not tacked) over a lining of builder's deadening felt which has been previously glued to the bare floor boards. The felt takes up expansion and contraction and gives you a permanent, waterproof, good-looking floor. The added service and wear this method gives are well worth the extra

Write for our booklet, "Decorative Linoleum Floors," which contains twenty-four colorplates showing patterns of Armstrong's Linoleum suited to the different rooms in your house. You can take this book to any good department or furniture store and show the merchant the color or design of linoleum that appeals to you most. He will let you see it in the piece and also give you. estimates of the cost of Armstrong's Linoleum laid in your

· Armstrong'sLinoleumRugs

For people who live in apart-ments or who have houses on short leases and consequently do not wish to install permanent linoleum floors, Armstrong's Linoleum is also made in the form of bordered rugs. Thirty attractive patterns in four sizes from 6 x 9 feet to 9 x 12 feet.

Los Angeles, Mr. and Mrs. and \$1,000 as against 4000 and \$1,000 as against 4000 as absolute in addition to 355 subsidized, as against 20 State-owned automobiles six years ago. I intend to save by weeding out the purely political jobs and by saving those who have made good and are expert in their line."

### AUDIENCE APPROVES

This last statement called forth

This answer to the favorite question of the club was met with prolonged applause.

Mrs. N. D. Darlington, wife of a member of the State Highway Commission, was the only one of many questioners who tried to heckle the candidate.

"You admit," she said to Mr. Richardson, "that 51 per cent of the budget goes for education."

"Yea," said Mr. Richardson, "and it should be so. My economy platform does not mean the cutting of educational, humanitarian or charitable expenses."

"Then," said Mrs. Darlington with growing asperity, "How do you propose to save out of the remaining 49 per cent." She intimated that there had been a change in the statements of the candidate as to his figures for saving since the primary election.

"Have you my statement before you?" saked the Republican mominee. "If you have you will see that I based my statement of saving on the present rate of increase in State expenses, which, according to the present rate of increase, will be \$150,000,000 in 1925, and \$150,000,000 in 1925, and \$200,000,000 in 1925, and \$150,000,000 in 1925, and \$200,000,000 in 1925, and \$150,000,000 in 1925, and \$150,000,000 in 1925, and \$150,000,000 in 1925, and \$150,000,000 in 1925, and pay roil of 11,000 as against 4000 and \$232 automobiles in addition to

ing out the purely political jobs and by saving those who have made good and are expert in their line.

AUDIENCE APPROVES

This last statement called forth such repeated rounds of applause that further heekling quastions were drowned in the unmistakable approval of the audience for the speaker.

To the question "Are you for the Waiter and Power Act!" Mr. Richardson replied: To the question "Are you for the Waiter and Power Act!" Mr. Richardson replied: Power Act! to passed I shall regard it as the will of the majority of the people and as their mandate shall uphold it as best I can and shall appoint the best board I can select to disburse the 500,000,000, which the and as their mandate shall uphold it as best I can sand shall appoint the house was a biase of golden flowers, hure chrysanthemums predominating, with banks of golden flowers, hure flexible flowers, hure flowers, hure flowers, hure flowers flowers, hure flowers, hure

#### URGE TRAFFIC LAW CHANGES

Safety Committee Seeks to Relieve Congestion

Would Force Pedestrians to Move With Vehicles

Lifting of No Parking Ban Recommended

the Public Safety Committee of the City Council, chief of which is a law requiring pedestrians to move with the traffic, and one marking off on the curbs spaces for parking and for loading.

The ordinance requiring pedestrians to move across intersections in the same direction as street cars and vehicles move was recommended at the suggestion of Chief Caks and Capt. McDowell of the police traffic squad. Similar laws are in force in New York and other eastern cities. The law, if approved by the Council, will also provide that street cars which new proceed around curves at eight downtown corners when the traffic signal is set against them, must move with the traffic.

MOVE WITH TRAFFIO

"Everyone should be required to move with the traffic," said Capt. McDowell to the committee." If this is done, we shall have fewer accidents and traffic of all kinds will be speeded up."

Under this law, if the Council state, is proposed to be estab-

MOVE WITH TRAFFIC

"Everyone should be required to move with the traffic," said Capt. McDowell to the committee. "If this is done, we shall have fewer accidents and traffic of all kinds will be speeded up."

Under this law, if the Council adopts it, the pedestrian seeking to dart across a stroet crossing will be violating the city ordinances just as an automobile driver would be if he attempted to do the same thing.

The Los Angeles Traffic Commission recently sent to the City Council five recommendations in the interest of traffic congestion relief, and two of these were approved yesterday afternoon by the committee. If they work out well the committee indicated that it might later approve of the other three.

COUNCILMAN MUSHET REGAINING STRENGTH the trial of Mrs. Annette Flaher-

Councilman Mushet, who is on leave of absence from the City Council and is in the mountains recovering from a recent severe illness, will resume his duties at the City Hall on November 1, officials at the City Hall were informed yesterday. The Councilman is rapidly regaining his strength, it was said. Many citisens have urged the Councilman to be a candidate for Mayor at the city primaries next May, but to all of them he has stated that his future plans will not be anade until he has returned to City Hall, and will depend entirely upon the degree in which he has recovered from his illness.

Unincorporated Company Files Petition for Permit; Says Service Inadequate

Application for a permit to establish a motor-bus passenger line to connect the downtown district of Los Angeles with Hollywood was filed yesterday with the Board of Public Utilities by the Hollywood Motor Bus Company, of which George Eastman is president. The company declared in its petition that the line is necessary, as the serv-ice rendered by the Pacific Electric Railway Company "is wholly inade-

quate and insufficient to care for the needs of the public and residents of the Hollywood district. [and four routes are given over

quate and insufficient to care for the needs of the public and residents of the Hollywood district.

The company proposes to charge a 5-cent fare for hauls up to three miles and 10 cents for longer hauls.

The organizers of the company, which has not as yet been incorporated, are named in the petition as being Harlan G. Palmer, George Green, John Luckenback, B. Y. Taft, Dr. E. O. Palmer, F. D. Howell, George Eastman, William Mead, Charles Christie, O. R. Fuller, S. Cahn, C. E. Toberman, Sward Cole, C. E. Boag, Wedgewood Nowell, G. G. Greenwood, E. F. Bogardus and the Beveridge estate. The bus line will have a capital of \$280,000, and will have as equipment specially built motor. three miles and 10 cents for longer hauls.

The organizers of the company, which has not as yet been incorporated, are named in the petition as being Harlan G. Palmer, George Green, John Luckenback, B. Y. Taft, Dr. E. O. Palmer, F. D. Howell, George Eastman, William Mead, Charles Christie, O. R. Fuller, S. Cahn, C. E. Toberman, Seward Cole, C. E. Boag, Wedgewood Nowell, G. G. Greenwood, E. F. Bogardus and the Beveridge estate. The bus line will have a capital of \$350.000, and will have as equipment specially built motor busses, each having a seating capacity of twenty-four passengers, and later double-deck cars may be used.
